

# BTC BANK

## PROTECT YOUR FARM'S FUTURE

Farm management you can trust.

**Approximately 96% of farms in the United States are family-owned** and play a vital role in the future of agriculture.

- **30% of family farms survive to the second generation**
- **10-15% of family farms survive to the third generation**

These statistics underscore the critical need for effective planning and management to secure your farm's future.

## FARM MANAGEMENT SERVICES

At BTC Bank, we have been meeting the financial needs of our farmers for over 100 years. Because many of our team members are farmers themselves, we know first-hand the hard work and agriculture expertise required to run a successful operation.

BTC Bank offers a variety of professional farm management solutions tailored to the unique needs of your farm. Flexible services provide the level of involvement and control that makes sense to you.

Cash Rent or Share-Crop Tenant
